RR5022A 22"

\$2,099

Price for Crated Unassembled Unit *Taxes, Freight, or Assembly Extra

The RR5022A is equipped with a 10HP Rato Recoil Start engine. Constructed with a robust 4-post Saw Head design, featuring sturdy grooved roller wheels with sealed bearings to ensure smooth saw head movement. Sealed bearings help avoid vibration-induced wear and tear, boosting precision, performance, and durability. The manual feed saw head, powered by the user, provides complete control over the cutting process, ensuring maximum safety. A belt-driven centrifugal clutch blade engagement system provides ultimate power transfer efficiency between the engine and sawblade, promoting smoother overall operation. An adjustable log clamp is included to secure logs in place during cutting, allowing for accurate lumber production. The hand-crank lifting mechanism of the saw head facilitates easy adjustment of cutting depth. This feature allows for precise customization of the cut thickness for each log, enabling precise milling of lumber to meet the specific dimensions required for your project.

RR5022A-T3K 22" Sawmill With 10' Trailer Kit

SAWMILLS

RR5018A 18"

\$1,605

Price for Crated Unassembled Unit *Taxes, Freight, or Assembly Extra

The Perfect Beginner's Hobby Mill – Affordable and Easy to Use! The RR5018A sawmill, the smallest in Range Road's 50 Series lineup, is a two-post hobby mill that's ideal for novice sawyers. The 8.5HP engine provides ample power to saw logs up to 18" in diameter and 7' in length, while also enabling cuts from veneers up to 5" thick slabs. Additionally, extensions are available to increase the cutting length as needed.
