FARM IMPLEMENTS

RRF900 Mini Baler

\$5,600

Price for Crated Unassembled Unit *Taxes, Freight, or Assembly Extra

The Range Road RRF900 Mini Round Baler is your affordable solution for hay bale making. Designed with small-scale ranchers, hobby farmers, and homesteaders in mind, the RRF900 provides a cost-effective option for your baling operations. This compact unit makes for easy storage, and the 3-point hitch system ensures easy maneuverability for efficient bale production.

Features

- Auto twine tie system (use any standard baler twine)
- Self-contained hydraulics
- 3-point hitch
- 3 manual bale settings
- Steel rollers (no belts)
- Hydraulic manual control lift gate
- Chain pick-up adjustment

Specifications

- 40-55 bales per hour
- Working Speed: 1.25 – 3 mph
- Adjustable wheelbase 45"- 51"
- Bale dimensions 27.5" x 28" (45-55 lbs.)
- Unit weight 968 lbs.

Tractor Requirements

- 20-40HP engine
- 540 rpm PTO
- 3-point hitch lift capacity of 968lbs. or greater
- No external tractor hydraulics required.

RRF920 Disc Mower

\$4,210

Price for Crated Unassembled Unit *Taxes, Freight, or Assembly Extra

The Range Road RRF920 disc mower is compact and efficient. Designed with an adjustable floating cutter bar and three cutting discs, it's an ideal choice for small hay operations. The RRF920 comes equipped with a breakaway cutter bar that safeguards the mower from any possible damage from any unexpected obstacles while cutting. The hydraulic raising feature of the cutter bar allows for easy turning, without the need to adjust the 3-point hitch.

Features

- 3 Point Hitch System
- 3 Cutting Disc
- Hydraulic Lifted Cutter Bar
- Adjustable Floating Cutter
- Breakaway Cutter Bar

Specifications

- Working Width 51"
- Overall Width 82"
- Working Speed 2.5- 6 mph
- Unit Weight 616 lbs.

Tractor Requirements

- 25-40HP engine
- 540 rpm PTO
- 3-point hitch lift capacity of 616lbs. or greater
- Tractor hydraulics required.

RRF930 Hay Rake

\$2,200

Price for Crated Unassembled Unit *Taxes, Freight, or Assembly Extra

The Range Road RRF930 rotary hay rake is a compact and economical piece of equipment, making it ideal for small hay fields or homesteads. The self-centering wheels allow for sharp maneuvering turns and effortless backing up. The tine positioning is fixed, while the operating PTO speed and tine pitch/angle can be adjusted to accommodate crops and conditions. The RRF930 collects dried cuttings into windrows, making them ready for baling.

Features

- 3 Point Hitch
- Variable PTO speed (max 540 RPM)
- Self-centering wheels
- 3 Height Positions
- Vertical Tines
- Parking Legs

Specifications

- Raking Width 98"
- Working Speed 2.5-5 mph

Tractor Requirements

- 18-50HP engine
- Maximum of 540 rpm PTO
- No external tractor hydraulics required.
